What Can I Do To Help You Look and Feel Better

Smiling & Chewing

If you are missing One Tooth or Some Teeth

If you lost a tooth or teeth from trauma, gum disease, failed root canals

I CAN REPLACE IT.

If you are missing Most or All of your Teeth

If you have dentures, thinking of getting dentures, or considering other implant procedures there are alternative solutions. With Teeth in a Day there are no messy pastes and no worry about your teeth popping out of your mouth because these are permanent teeth. This minimally invasive procedure uses only 4 implants as compared to alternative treatments which often require 6-12 implants!

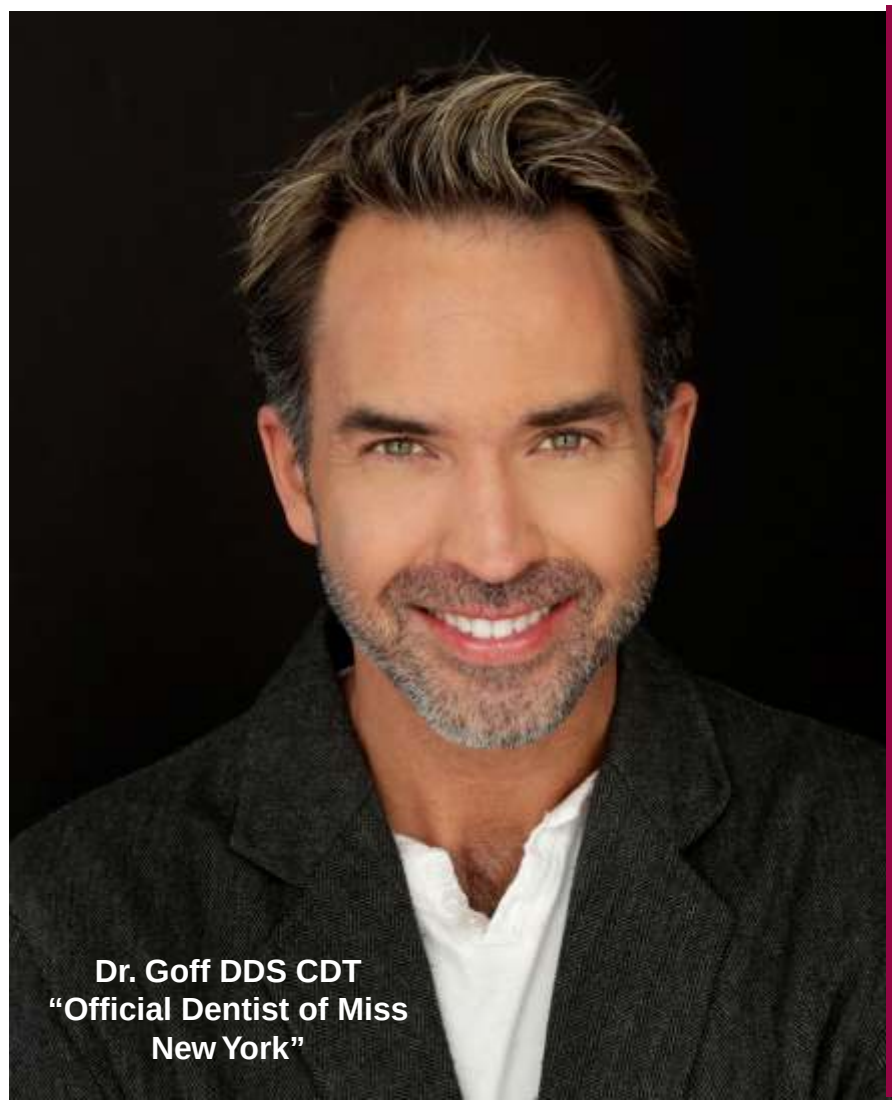
Dr. Goff receiving his historic award from Harvard Medical School

Attend A Free Consultation

All of our dental implant procedures begin with a free consultation. At this consultation, I will create a treatment plan customized just for you where I will discuss with you exactly how much dental implants will cost you and no surprise fees.

Easy Exam

Once you have decided that you want dental implants, I will meet with you again to finalize your treatment plan and to prepare everything needed for your implants. After I complete the exam I will answer any remaining questions and schedule your "Teeth in a Day" procedure.



Dr. Goff DDS CDT
"Official Dentist of Miss New York"

"Teeth in a Day" Dental Implant Procedures

Today I will need to place only 4 dental implants and you will go home with a temporary set of teeth that look, feel, and function like natural teeth.

All in one day! All on just 4 implants! Great looking smile! Doesn't come out! No more dentures!

What Can I Do To Help You Look and Feel Better

Continued from Page 2

Follow Ups

There is a recovery period following any dental implant procedure. Most patients will be on a soft food diet immediately following any implant procedure while their implants heal. While healing we ask patients to come in for follow ups in order to check that everything is healing properly. All of the follow ups are at NO ADDITIONAL COST.

Life's simple pleasures

Your teeth are an important part of your life. They are necessary for eating, speaking, first visual impressions, and they support your overall facial structure. Having stable and attractive teeth also affects your confidence and interaction with others. Restoring and replacing your teeth to the best of appearance and function helps you to enjoy life to the fullest.

Facial Aesthetics & Shaping

Liquid Face Lift

A non-invasive technique performed by injecting advanced dermal fillers, such as JUVEDERM®, Radiesse® and Restylane® to lift and contour facial features. The Liquid Face Lift can be used to accomplish any of the following:

1. Gentle lift of facial features
2. Reduced wrinkles, creases, lines or folds
3. Restoration of natural, curved facial contours
4. Provide a more rested, energetic look
5. Provide a more youthful smile

Lip Enhancement or Correction

A non-surgical procedure that aims to improve the appearance of the lips through the use of fillers.

Botox (Botulinum Toxins)

A non-surgical procedure that aims to improve the appearance of the face by reducing wrinkles, correcting asymmetries, and giving a rejuvenated/more rested appearance.

Looking your Best

Your face will age as sagging skin creates more wrinkles. Non-invasive injectables can help to restore your appearance, reduce wrinkles, and restore facial form. Loss of teeth can cause jaw bone resorption which contributes to loss of facial support. Dental implants help to keep your jawbone healthy and strong, they also help to preserve a more youthful appearance.

Why us?

716Dental is a unique practice where the focus is on the individual. We are not a "mill" office, we schedule and see only ONE patient at a time. Our focus is on quality not quantity. We are a local office which offers world class procedures. I have performed thousands of implant and cosmetic procedures. My level of experience has given my patients the confidence to smile again.

One Team

Dr. Goff DDS CDT is a Harvard Medical School award winning Doctor of Dental Surgery. He is Board Certified in Dentistry and Dental Implant Technology (*World's first DDS awarded the technological distinction of Board Certified Specialist in Dental Implants by the NBC). Dr. Goff knows first-hand about facial aesthetics being a former runway & fashion model. He is certified in facial shaping by the American Society of Plastic Surgeons, Plastic Surgery Education Foundation, and the American Society for Aesthetic Plastic Surgery. Dr. Goff is an expert in the areas of cosmetic & implant dentistry, sedation, and facial aesthetics. He has lectured at some of the world's most prestigious organizations including Harvard Medical School. 716Dental offers all levels of sedation for patient comfort.

One Affordable Cost

It is sometimes difficult to know the full price of any procedure, especially dental implant procedures. Some practices have you see specialists in other offices and each doctor will have their own separate fees that add up at each stage in the process. Since your treatment is performed by one doctor and on one site, we are able to give a single price for the entire procedure from start to finish. We are special because we offer a boutique setting, where the focus is on the personal touch. We are able to offer affordable options because you pay for the procedure and not the overhead on a huge facility or group practice whose focus is not solely implants and cosmetics. There are no surprise fees and no hidden costs. After your free consultation, you will know exactly what it will cost to complete your treatment.
